

ACADM RABBIT MAB

Cat.#: N261784

Product Name: Anti-ACADM Rabbit Monoclonal Antibody

Synonyms: ACADM; Medium-chain specific acyl-CoA dehydrogenase; mitochondrial; MCAD

UNIPROT ID: P11310

Background: This gene encodes the medium-chain specific (C4 to C12 straight chain) acyl-Coenzyme A dehydrogenase. The homotetramer enzyme catalyzes the initial step of the mitochondrial fatty acid beta-oxidation pathway. Defects in this gene cause medium-chain acyl-CoA dehydrogenase deficiency, a disease characterized by hepatic dysfunction, fasting hypoglycemia, and encephalopathy, which can result in infantile death. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
