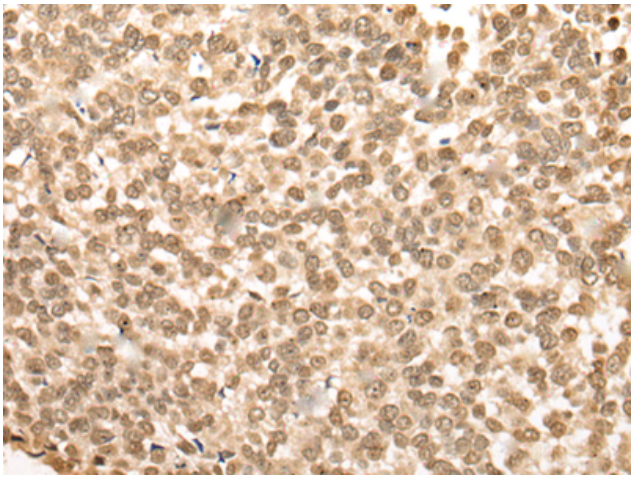
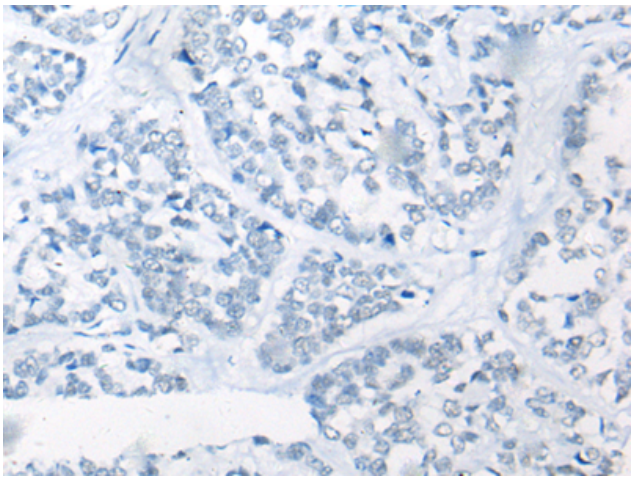
BBX RABBIT PAB

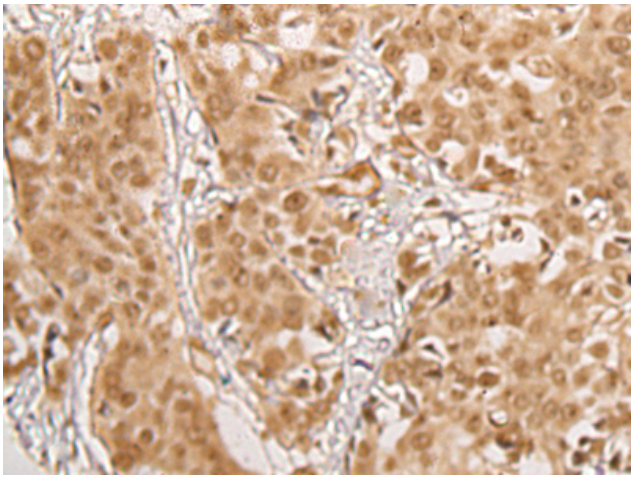
Cat.#: S218354
Product Name: Anti-BBX Rabbit Polyclonal Antibody
Synonyms: HBP2; ARTC1; MDS001; HSPC339
UNIPROT ID: Q8WY36 (Gene Accession - BC131718)
Background: Transcription factor that is necessary for cell cycle progression from G1 to S phase.
Immunogen: Fusion protein of human BBX
Applications: ELISA, IHC
Recommended Dilutions: IHC: 30-150; ELISA: 5000-10000
Host Species: Rabbit
Clonality: Rabbit Polyclonal
Isotype: Immunogen-specific rabbit IgG
Purification: Antigen affinity purification
Species Reactivity: Human
Constituents: PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.05% Sodium Azide and 40% glycerol
Research Areas: Epigenetics and Nuclear Signaling
Storage & Shipping: Store at -20°C. Avoid repeated freezing and thawing



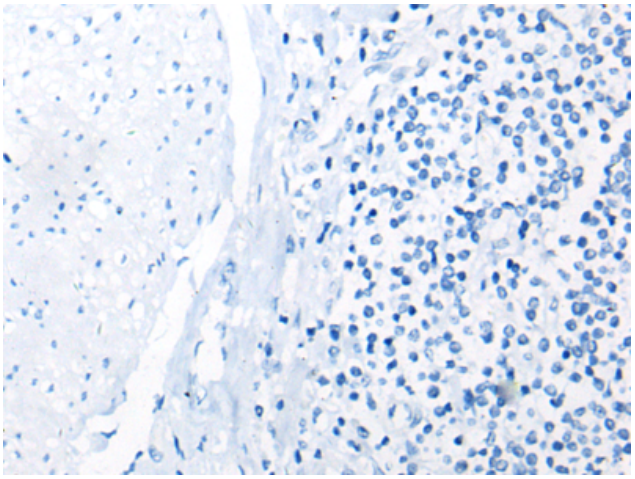
Immunohistochemistry analysis of paraffin embedded Human esophagus cancer tissue using 218354(BBX Antibody) at a dilution of 1/35(Nucleus).



In comparision with the IHC on the left, the same paraffin-embedded Human esophagus cancer tissue is first treated with the fusion protein and then with 218354(Anti-BBX Antibody) at dilution 1/35.



The image on the left is immunohistochemistry of paraffin-embedded Human prostate cancer tissue using 218354(Anti-BBX Antibody) at a dilution of 1/35.



In comparision with the IHC on the left, the same paraffin-embedded Human prostate cancer tissue is first treated with fusion protein and then with D224238(Anti-BBX Antibody) at dilution 1/35.
