

IRF1 RABBIT MAB

Cat.#: N262423

Product Name: Anti-IRF1 Rabbit Monoclonal Antibody

Synonyms: IRF1; Interferon regulatory factor 1; IRF-1

UNIPROT ID: P10914

Background: Specifically binds to the upstream regulatory region of type I IFN and IFN-inducible MHC class I genes (the interferon consensus sequence (ICS)) and activates those genes. Acts as a tumor suppressor. Defects in IRF1 are a cause of gastric cancer (GASC) [MIM:613659]; also called gastric cancer intestinal or stomach cancer. Gastric cancer is a malignant disease which starts in the stomach, can spread to the esophagus or the small intestine, and can extend through the stomach wall to nearby lymph nodes and organs. It also can metastasize to other parts of the body.
