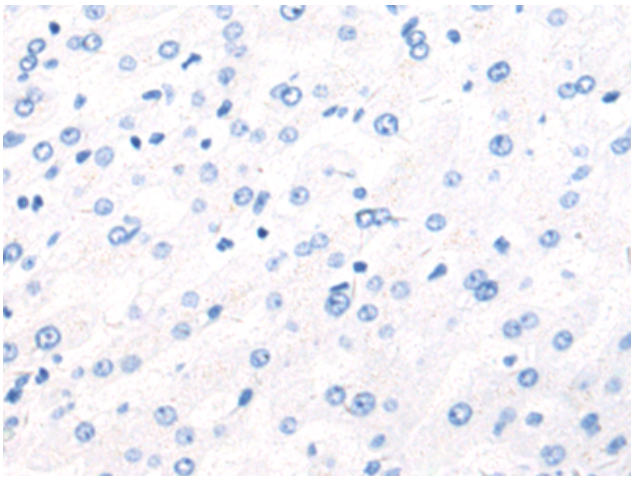
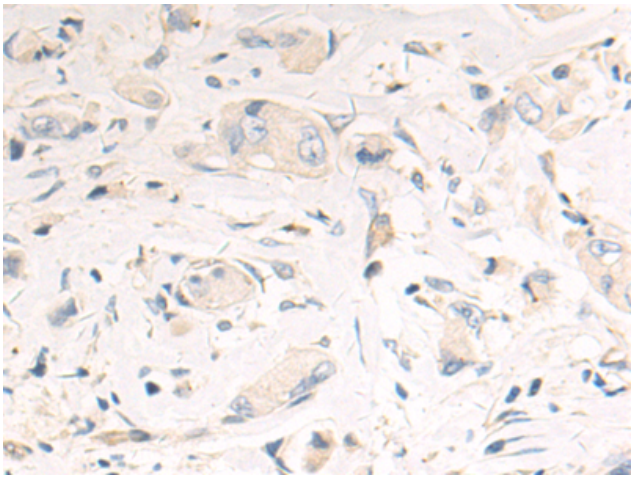
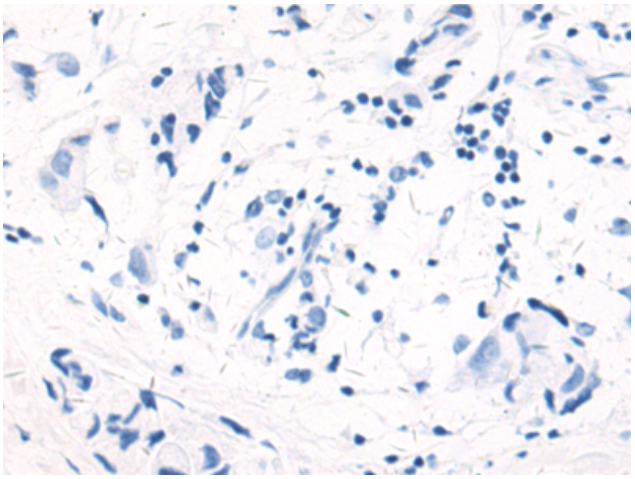
Immunohistochemistry analysis of paraffin embedded Human liver cancer tissue using 219564(SNX24 Antibody) at a dilution of 1/55(Cytoplasm).



In comparision with the IHC on the left, the same paraffin-embedded Human liver cancer tissue is first treated with the fusion protein and then with 219564(Anti-SNX24 Antibody) at dilution 1/55.



The image on the left is immunohistochemistry of paraffin-embedded Human breast cancer tissue using 219564(Anti-SNX24 Antibody) at a dilution of 1/55.



In comparision with the IHC on the left, the same paraffin-embedded Human breast cancer tissue is first treated with fusion protein and then with D227775(Anti-SNX24 Antibody) at dilution 1/55.
