

CCR4 (DMC297) IGG1 CHIMERIC MAB

Cat.#: 28196

Product Name: Anti-CCR4(DMC297) IgG1 Chimeric Monoclonal Antibody

Synonyms: CC-CKR-4; CD194; ChemR13; CKR4; CMKBR4; HGNC:14099; K5-5

Description: Anti-CCR4 antibody(DMC297) IgG1 Chimeric Monoclonal Antibody

Background: The protein encoded by this gene belongs to the G-protein-coupled receptor family. It is a receptor for the CC chemokine - MIP-1; RANTES; TARC and MCP-1. Chemokines are a group of small polypeptide; structurally related molecules that regulate cell trafficking of various types of leukocytes. The chemokines also play fundamental roles in the development; homeostasis; and function of the immune system; and they have effects on cells of the central nervous system as well as on endothelial cells involved in angiogenesis or angiostasis.

Applications: Flow Cyt

Recommended Dilutions: Flow Cyt 1:100

Host Species: Rabbit

Isotype: Rabbit:Human Fc chimeric IgG1

Purification: Purified from cell culture supernatant by affinity chromatography

Species Reactivity: Human CCR4

Constituents: Lyophilized from sterile PBS, pH 7.4. 5 % - 8% trehalose is added as protectants before lyophilization.

Storage & Shipping: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).
