目录: 28494

产品名称: SELP(DM150) Rabbit Monoclonal Antibody

基因符号: P-Selectin;CD62P;SELP;GMP-140

描述: SELP antibody(DM150) Rabbit Monoclonal Antibody

背景: This gene encodes a 140 kDa protein that is stored in the alpha-granules of platelets and Weibel-Palade bodies of endothelial cells. This protein redistributes to the plasma membrane during platelet activation and degranulation and mediates the interaction of activated endothelial cells or platelets with leukocytes. The membrane protein is a calcium-dependent receptor that binds to sialylated forms of Lewis blood group carbohydrate antigens on neutrophils and monocytes. Alternative splice variants may occur but are not well documented.
