

ANTI-SUMO NANOBODY

Sumo Nanobody

货号: 26405

规格: 100 μ L

基因符号: Sumo

描述: Sumo Nanobody

背景: Sumo tag is a polypeptide sequence containing Sumo (small ubiquitin-like modifier) domain, which is often connected to target proteins to study the function and interaction of Sumo modification. sumo tag antibodies can specifically recognize and capture Sumo tags. By binding to the Sumo tag, this antibody can be used to detect, purify and localize Sumo-modified proteins.

经过测试的应用: FACS, Elisa, IP, Co-IP, IHC

Dilution: 1:1800

Molecular Weight: 15 kD

种属反应性: Human

形式: Liquid

克隆性: Recombinant Monoclonal

Tag: His, Myc

成分: PBS, 40% Glycerol, 0.03% proclin300

Species: Human

储存条件: Store at 4 $^{\circ}$ C, 6 months; -20 $^{\circ}$ C, 2 years

FACS \times sumo antibody at 1/1800 dilution:
